CUSTOM RACK MOUNT NOW AVAILABLE FOR VIA!dj

ELAN has successfully introduced its VIA!dj™ Digital Music Server to the world with rave reviews and many awards. With four discrete audio outputs, the VIA!dj™ saves money and rack space by putting a huge amount of functionality into one small chassis. The unit ships from ELAN as a shelf-mount, however, Middle Atlantic Products, Inc. has developed a custom rack-mount for the VIA!dj™ with part number **RSH4A3R ELAN VIADJ**. This rack mount will allow easy positioning of a VIA!dj™ in any standard rack. Please contact Middle Atlantic (www.middleatlantic.com) for additional information.
